3570 Series
Cylinder Mortice Locks

LOCKWOOD

ASSA ABLOY

Contents

Application

A wide range of security cylinder mortice locks and latches suitable for heavy duty use in industrial and commercial buildings, institutions, clubs, schools, hospitals, hotels and similar buildings.

Features & Specifications

All 3570 Series cylinder mortice locks are made from quality materials to meet high durability and strength requirements.

Case & Cover Plates:

- High purity zinc alloy material cases and stainless steel cover plates
- Brass plates provided for plated finishes available in square and round end

Backset:

- 60mm standard backset
- Extended backsets 89 and 127mm are available on application. (Refer to Ordering Procedure)

Latchbolts

Latchbolts are 15mm, stainless steel. Deadlatching is achieved by an auxiliary stainless steel latchbolt. This auxiliary bolt retracts when the main latchbolt is withdrawn when the door is closed.

Deadbolts

Deadbolts are 19mm, stainless steel.

Springs

High-grade spring steel material, corrosion protected.

Cylinder Retaining Pin

Hard-drawn spring steel wire, corrosion protected.

Door Thickness

- 3570 Series locks - 32 to 50mm
- 3579 Series SCEC locks - 35 to 50mm
- 3670 Series Securafix locks - 32 to 45mm

Locksets to suit thicker doors are available on application.

Cylinder

Five pin tumbler mechanism. Standard Lockwood oval shaped brass cylinders and brass plugs.

Door Clearance

To ensure correct functioning of the deadlatching mechanism and security for all locks, the clearance between the door and frame should be 3mm. However the deadlatching will operate up to 8mm door clearance.

Aluminium Doors

Aluminium door accessory packs and aluminium fix locks are available upon request. Specify SP3570 - 419 for mounting tabs accessory pack or 3572AFSC for complete primary lock.

Security

All 3570 Series Cylinder Mortice Locks conform with Level S2 (Physical Security) Australian Lock Standard (AS-4145.2-1993). Level S3 (Physical Security) is available upon request.

Durability

All 3570 Series Cylinder Mortice Locks conform with level D3 (Durability) Australian Lock Standard (AS 4145.2-1993).

Fire rating

Lockwood 3570 Series Mortice Locks have been successfully tested up to 4 Hours (depending on type of doorset) on fire door assemblies in accordance with Australian Standard AS 1905.1-2005, Part 1: Fire resistant doorsets.

Keying

Standard keying:

- Supplied individually keyed with two keys per lock and 78,000 random key combinations.
- Key blank KB2015P.

Special Keying

Can be keyed alike, master keyed, grand master keyed, maison keyed or construction keyed in Lockwood security keying systems.

Standard Finishes

Chrome Plate	CP
Satin Chrome	SC
Polished Brass	PB

Specification Service

For all architectural hardware specification assistance refer to your local ASSA ABLOY Sales Office. A fully comprehensive, obligation free, architectural door hardware specification can be prepared by ASSA ABLOY Architectural Hardware Consultants.

Extended Cylinders

Extended cylinders are available for thicker doors - refer Accessories on page 21.

Rebate

Rebate kits to suit 13mm standard rebate are available - refer Accessories on page 20.

Electric Strikes

Lockwood 3570 Series Mortice Locks are compatible with most electric strikes. Refer local sales office for further details.

S2 HIGH SECURITY

D3 DURABILITY

FIRE RATED

LOCKWOOD

ASSA ABLOY

3570 Series Standard Backset

1. Hub Selection

A patent protected cam operated hub setting mechanism accessible through the lock body from the outside.

2. Latch Bolt

Reversible for both left and right hand doors opening in or opening out without disassembly.

Standard deadlatch configuration, except for passage latch function.

Separate auxiliary bolt moves into lock case simultaneously with latch bolt.

Bolt – stainless steel fire rated to 4 hours as standard. Electric strike compatible.

3. Strike

Universal stainless steel strike suitable for 4 hour fire rating applications.

4. Door Thickness

Standard applications 32 to 50mm.

5. Backsets

60mm standard, 89mm and 127mm available on application.

6. Cylinder/Adaptor Retention

Patented "Slip Pin" Cylinder/Adaptor fixing method, which allows attachment to the case by inserting a non-threaded cylindrical pin through the front of the lock case.

7. Multi-Function Lock

Lock is designed to significantly reduce stock line items.

Standard cylinder mortice lock can be converted from escape function to combination function by simple adjustment of hub snibs without lock case disassembly.

8. Case Assembly

High purity zinc alloy case and backplate.

9. Cylinder Assembly

Five pin tumbler mechanism. Standard Lockwood oval shaped, brass cylinders and brass plugs.

10. Kick-Off Selection

A removable screw mechanism selects kick-off (screw fitted) or no kick-off (screw removed).

11. Faceplate

Stainless steel face plate supplied in square end (standard) and optional round end.

3570 Series Cylinder Mortice Locks

3579 Series Mortice Locks and Deadbolts
SCEC Endorsed (Secure Area)

For use in high security government, institutional and commercial projects, the 3579 Series Mortice Lock has been successfully SCEC endorsed for secure area applications.

Fire Rating

The Lockwood 3579 Series Cylinder Mortice Lock has been successfully fire tested up to 4 hours on fire door assemblies in accordance with Australian Standard AS 1905.1 - 2005, Part 1: Fire-resistant doorsets.

Features & Specifications

- All handing type features of the lock including hub selection, anti-lockout screw & reversible latch are accessible without removing the plates
- 570 oval type cylinders & retaining pin can be used (cylinder must also be SCEC endorsed for secure area)
- 2 x 1.2mm Stainless steel plates fixed through the lock provide increased strength to the cylinder and latch areas of the lock
- Available with all 3570, 3571, 3572 and 3574 functions (refer to pages 4-11 and 14-15)

To achieve secure area rating, the 3579 Mortice Lock must also:

- Be fitted with a SCEC endorsed 570 oval cylinder which is also Secure Area rated, eg ABLOY PROTEC
- Be fitted with full plate furniture including Lockwood 1800 Series, 2800 Series and Artefact Series II

Furniture

Select from the Lockwood 1800, 2800 or Artefact Series II plate furniture ranges to maintain compliance with SCEC Secure Area ratings.

Functions

Available in Nightlatch, Deadbolt, Vestibule Set and Combination lock configurations - refer to relevant pages within this catalogue for further function detail.

- Nightlatch Functions - pages 4-5
- Deadbolt Functions - pages 6-7
- Vestibule Set Function - pages 8-11
- Combination Lock Functions - pages 14-15

Keying

Can be keyed alike, master keyed, grand master keyed, maison keyed or construction keyed in SCEC Secure Area Endorsed keying systems such as Abloy Protec.

Standard Finishes

Chrome Plate	CP
Satin Chrome	SC
Polished Brass	PB

3670 Securafix Series
Patent Pending

Application

Where added security is required a wide range of security cylinder mortice locks are available. Suitable for heavy duty use in industrial and commercial buildings, institutions, clubs, schools, hospitals, hotels and similar buildings.

Fire Rating

The Lockwood 3670 Series Securafix Cylinder Mortice Locks have been successfully fire tested on fire door assemblies up to 4 Hours (depending on type of door) in accordance with the requirements of Australian Standard AS1905.1:2005 Part 1: Fire-resistant doorsets.

Features & Specifications

Case & Cover Plates

High purity zinc alloy material cases and stainless steel cover plates. Brass plates provided for plated finishes.

Backset

60 mm standard backset. Refer to Ordering Procedure for extended backsets.

Door Thickness

32 to 45 mm. Locksets to suit thicker doors are available on application.

Security Rating

Standard 3670 Series Cylinder Mortice Locks conform with Level S2 (Physical Security Australian Lock Standard (AS-4145.2-1993). Conformance with Level S3 (Physical Security) is available upon request.

Durability Rating

All 3670 Series Cylinder Mortice Locks conform with level D3 (Durability) Australian Lock Standard (AS-4145.2-1993).

Furniture

Lockwood 1800 and 2800 Series Securafix Furniture.

3570 Series Cylinder Mortice Locks

Ordering Procedure

Sample Part Number 3574WTRSCAF is made up of seven elements. The description of this part number is a an office locking combination latch with cylinder and turn, right handing, satin chrome, for aluminium fix. Choose your product by selecting an option from each element.

For example:

Backset	Platform	Function	Sub Function	Handing	Finish	Options
3	57	4	WT	R	SC	AF

Backset	
60mm	3
89mm	4
127mm	5

Platform	
Standard (Intruder Resistant)	57
SCEC Secure Area*	579
Securafix	67

Functions	
Nightlatch	0
Deadlock	1
Vestibule lock	2
Sliding door lock	3
Combination lock	4
Dual entry lock	7
Hold back lock	8

Sub Functions	
eg. Outside Inside W T	
Locking Cylinder with W cam	W
Latching Cylinder with X cam	X
Locking Cylinder with Y cam	Y
Locking Cylinder with Z cam	Z
Locking Cylinder with M cam	M
Emergency button	E
Turnbutton adaptor	T
No sub function	–
Antilockout	A

Handing	
Right	R
Left	L

Finish	
Chrome Plate	CP
Satin Chrome	SC
Polished Brass	PB

Options	
Modric spring	M
8mm hubs	8
Rounded Cover Plate	RO
Aluminium fix	AF

DOOR OPENING IN

RIGHT HAND — INSIDE — LEFT HAND
OUTSIDE

DOOR OPENING OUT

INSIDE
RIGHT HAND — OUTSIDE — LEFT HAND

*Secure Area only available in Nighlatch, Deadlock, Vestibule and Combination configuration. Must be used in conjunction with SCEC Secure Area rated cylinder (eg Abloy Protec) and furniture (eg Lockwood 1800 series)

Code

1. **Backset:** Nominate backset as required, for example 3 = 60mm backset.

2. **Function:** Select function, for example 574 = Combination Lock.

3. **Sub Function:** Determine sub function requirements for both exterior and interior.
   For example:
   Exterior – Locking function required – specify W (cylinder).
   Interior – turnknob function required – specify T (turnbutton adaptor).

4. **Handing:** If applicable refer to door handing chart to determine left or right hand, for example R.

5. **Finish:** Select appropriate finish, eg SC. Other finishes available on application.

6. **Options:** Where additional options are needed, specify as required, for example AF = Aluminium Fix.
